PROFESSIONAL SUMMARY

Computer Science undergraduate and multidisciplinary builder working across front-end development, UI/UX, graphic design and AI-assisted operations. Delivers live products from Figma to production, including the web and mobile interfaces of a visitor-management SaaS and a payment-enabled career-guidance platform, and runs creator operations with structured Notion and AI workflows. Long-term goal: an MBA to combine engineering with product and business strategy.

EDUCATION

JECRC University, Jaipur | B.Tech, Computer Science and Engineering — 2024 - 2028
- Related Coursework: Python, C, C++, Salesforce

IIT Madras (Online Program) | BS, Data Science — 2023 - 2024

EXPERIENCE

Careers With Nandini — Remote
Social Media & Creator Operations Manager — *2026 - Present*
- Run PR, creator and brand collaborations, and outreach: draft partnership emails, pitches, scripts and creative briefs.
- Maintain prospect research, qualification rules, outreach status and follow-up schedules in Notion databases.
- Set up repeatable research instructions and human-review checkpoints for ChatGPT- and Claude-assisted workflows.
- Design social creatives and manage audience data and content planning for a career-focused creator.

Freelance — Jaipur (Remote)
Frontend Developer & Designer — *Jul 2024 - Present*
- Design and build websites, app interfaces and brand assets for clients including GateKey, Careers With Nandini and Coupon Drops, owning delivery from requirements and Figma design to API integration and hosting.

Internship Studio — Remote
Graphic Designer — *Oct 2024 - Nov 2024*
- Developed a complete brand identity for a startup client (logo system, typography and colour palette) with brand guidelines for social, print and web.

My-Captain — Rajasthan
Campus Ambassador — *Sep 2024 - Nov 2024*
- Generated 300+ leads, the highest on the team, across JECRC, NIAMT Ranchi, IIT Kanpur and Christ University; led on-campus campaigns for cohort-based courses.

PROJECTS

GateKey Mobile Apps | Figma, UI/UX, React Native, REST APIs — gatekey.co.in
- Designed the UI for three role-based visitor-management apps (Guard, User, Superadmin) on one shared design system.
- Integrated the app screens with backend APIs, with fast, low-step flows for check-in, approvals and administration.

GateKey Website | HTML, CSS, JavaScript, GSAP, Lenis, APIs — gatekey.co.in
- Designed and developed the marketing website UI and front end with scroll-driven animation and a responsive layout.
- Produced dashboard visuals, product graphics, banners, device mockups and marketing collateral for the product.

Careers With Nandini Platform | JavaScript, Supabase, Netlify, Razorpay, Topmate — careerswithnandini.com
- Built the platform from scratch, design to deployment; integrated Razorpay payments, Topmate bookings, email automation and broadcasting through their APIs, with custom UI animations.

Personal Portfolio | HTML, CSS, JavaScript, Node.js, Express, OAuth 2.0 — portfolio-saturdyyyy.vercel.app
- Framework-free interactive site with a Canvas API background and mini game; live Spotify Web API integration via OAuth 2.0 through a Node/Express proxy on Render, deployed on Vercel.

AI-Assisted Creator Research & Outreach System | Notion, ChatGPT, Claude — 2026
- Mapped a repeatable flow from prospect discovery and verification to status tracking, outreach preparation and scheduled follow-ups, with documented rules and review checkpoints.

SKILLS & INTERESTS

Development	HTML, CSS, JavaScript, Node.js, Express, REST APIs, OAuth 2.0, SQL, MongoDB
Design	Figma, Adobe CC, Canva, UI/UX, branding, typography, motion graphics, video editing
AI & Ops	Claude, ChatGPT, Gemini, Cursor, Notion databases, prompt design, workflow documentation
Tools	Git, GitHub, VS Code, Vercel, Render, Excel
Writing	Scriptwriting, ghostwriting; serialized fiction on Substack (saturdyyyy.substack.com)
Language	English (Proficient), French (Intermediate)
