SUMMARY

B.Tech Computer Science student who designs in Figma, builds in HTML, CSS and JavaScript, and ships live websites and app interfaces for real clients. Comfortable across the full path from wireframe to deployment, and works fluently with AI tools while understanding the code they produce. Plans to pursue an MBA after the B.Tech to pair technical depth with product and business thinking.

EDUCATION

B.Tech, Computer Science and Engineering, JECRC University, Jaipur 06/2024 - 06/2028
BS, Data Science, IIT Madras (Online Program) 07/2023 - 12/2024
Coursework: Python, C, C++, Salesforce

PROJECTS

Saturdyyyy Portfolio | portfolio-saturdyyyy.vercel.app HTML, CSS, JavaScript, Node.js, Express
- Designed and built an interactive portfolio with a Canvas API background and a custom cursor, with no frameworks.
- Integrated the Spotify Web API using OAuth 2.0 through a Node/Express proxy on Render to show live now-playing and recent tracks, with playback controls.
- Deployed on Vercel with GitHub auto-deploy; keeps API secrets in server-side environment variables.

GateKey | gatekey.co.in HTML, CSS, JavaScript, GSAP, React Native
- Built the marketing website UI with scroll-driven animation (GSAP, Lenis) and a responsive layout.
- Designed and developed the interface for the Guard, User and Superadmin mobile apps of a property access-management product.

Careers With Nandini | careerswithnandini.com JavaScript, Netlify, Supabase, Razorpay
- Built and deployed the career-guidance website end to end, from design to hosting and domain setup.
- Integrated Razorpay checkout for digital playbooks and Topmate for session bookings.

EXPERIENCE

Social Media Manager, Careers With Nandini Present
- Manage the brand's social presence across PR, creator collaborations, email outreach and data handling.
- Design post creatives and write scripts for short-form content.

Frontend Developer, Freelance 07/2024 - Present
- Delivered a website for Coupon Drops, a college startup, and sites for the clients above, designing in Figma before development.

Campus Ambassador, My-Captain 09/2024 - 11/2024
- Generated 300+ leads, the highest on the team, across JECRC, NIAMT Ranchi, IIT Kanpur and Christ University.
- Led on-campus promotion of live, cohort-based courses and coordinated messaging with the core team.

Graphic Designer, Internship Studio 10/2024 - 11/2024
- Created a brand identity for a startup: logo marks, typography and colour palette.
- Designed 11+ posts for JECRC University's official social media for events and fests.

SKILLS

Development: HTML, CSS, JavaScript, Node.js, Express, REST APIs, OAuth 2.0, SQL, MongoDB
Design: Figma, Adobe Creative Cloud, Canva, Excel
Tools: Git, GitHub, VS Code, Vercel, Render
AI Proficiency: Claude, Gemini, Cursor, prompt engineering; reviews and understands the code AI generates
Languages: English (Proficient), French (Intermediate)
